State Line Truck Service is very committed to training. We are hoping you will all join us and support training done here in the Northeast which will be beneficial for all. If you have any questions please call Kelly at 603-585-6531 or krecord@statelinetruckservice.com

There are limited seats available so please sign up ASAP to secure your spot.

We will need full names and Dealer Portal ID's to reserve spots.

501409- Mack Information Systems: This course provides dealer service technicians with practical, hands on practice with critical dealer employed information applications and resources. Application of the diagnostic process is reinforced throughout the course to enable technicians to perform consistent, accurate and efficient diagnostics and repair procedures. The course provides a comprehensive overview of all service information systems.

501148- Mack m-Drive Diagnostics: This course provides experienced, dealer service technicians with practical, hands on, guided practice using the automated transmission platform for Mack to diagnose a range of issues, identify the root cause and correct the problem. Technicians will utilize relevant support systems including Trucks Dealer Portal, impact, PTT 2.0, eMedia and Service Bulletins.

501410- Mack Engine Diagnostics: This course provides dealer service technicians with practical, hands on practice analyzing and diagnosing engine-related problems within the context of probable diagnostic scenarios. Application of the diagnostic process is reinforced throughout the course to enable technicians to perform consistent, accurate, and efficient diagnostic and repair procedures. Workshop Activities focus on diagnosing engine-related problems based on probable scenarios. Participants are evaluated based upon completion of pre-assessment, post-assessment, and performed based observation.
